TROY STREET DIRECTORY.

COPYRIGHT, 1913, SAMPSON & MURDOCK CO.

Giving the name of each street and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as for instance, wishing to know at what part of Second street No. 168 comes, look at Second street, and it is found that Liberty street crosses at 156, Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Ciphers are substituted for numbers on streets not fully numbered.

CLASSIFIED BUSINESS DIRECTORY OF TROY

COPYRIGHT, 1913, SAMPSON & MURDOCK CO.

The classification of Business Headings in the Troy Directory is made in accordance with a Standard List adopted by the Association of American Directory Publishers, September, 1904, to secure uniformity in all the principal directories of the country, and to largely promote the convenience of those making use of this important section of directories.

All headings indicated by * are Special Headings.

The Association of American Directory Publishers

Headquarters, 202 East Twelfth St., New York

ORGANIZED NOVEMBER, 1898

OFFICERS

President, JAMES L. HILL, Richmond, Va.

1st Vice President, R. H. DONNELLEY, Chicago

2d Vice President, WILSON H. LEE, New Haven

Secretary-Treasurer, W. H. BATES, New York

TRUSTEES

WM. E. MURDOCK, Boston — W. H. BATES, New York
W. H. LEE, New Haven — A. V. WILLIAMS, Cincinnati
R. L. POLK, Detroit — J. L. HILL, Richmond
R. H. DONNELLEY, Chicago — EDWARD M. GOULD, St. Louis
W. G. TORCHIANA, Philadelphia

The objects of the Association are as follows:

FIRST: To improve the directory business by the interchange of ideas, and by the exchange of competent employees.

SECOND: *To Protect the public against fraudulent advertising schemes operated under the name of directories and to drive the promoters of such out of business.*

THIRD: To provide permanent and continuous employment for honest and faithful directory canvassers.

FOURTH: For the mutual advancement of the established and prospective interests of all who may become members of the association.

$100.00 Reward ***The Association of American Directory Publishers will pay the above reward for the arrest and conviction of any one soliciting or collecting money on fraudulent directories, provided the conviction results in imprisonment for not less than 6 months. In case of arrest immediately telegraph W. H. BATES, Sec'y., 202 East Twelfth St., New York.***

The Silent Salesman

Though an ad in the directory makes no noise; most progressive business houses admit that its unrealized pulling power is oftentimes beyond estimate and regard it as an important factor in paving the way for new business or in holding the old.

This Company organized an Electric Lighting Department in 1888, taking power from the Cohoes Company and operating water wheels under 90 feet head. Later a power section was added to this department. The City of Cohoes is well piped for gas, and electric lines for power and light cover the city. Consumers' rates are low and favorable contracts are made for power. The Company is progressive and offers favorable inducements to parties desiring to locate.

WARD BOUNDARIES

The City is divided into six wards, bounded and described as follows:

First Ward—All that part of the city included within the following lines, to wit: Commencing at a point in the Mohawk river, where the centre line of Vliet street extended intersects the boundary line of the city; thence westerly along said line and the centre line of Vliet street to its intersection with the Erie canal; thence southerly along the centre of said canal to the centre line of Newcomb street extended westerly to the centre of the lands of the N. Y. C. R. R.; thence westerly along said line to the centre of said railroad company's lands; thence northerly and westerly along the centre line of said railroad company's lands to its intersection to the northerly boundary line of said city; thence northerly and easterly along the boundary line of said city to the place of beginning, shall comprise the first ward.

Second Ward—All that portion of the city comprised within the following lines, to wit: Commencing at a point in the Mohawk river, where the line of Vliet street extended intersects the boundary line of the city; thence easterly and southerly along said boundary line and the centre of the south branch of said river, as it flows easterly of Simmons' island, to a point directly east of the south end of said island; thence in a direct line to the point of intersection of the centre of Pine street with the centre of the Champlain canal; thence along the southerly boundary line of the second ward of the village (now city) of Cohoes to its intersection with the Erie canal; thence northerly along the centre of said canal to the centre of Vliet street; thence easterly along Vliet street and the line of Vliet street, extending to the place of beginning, shall comprise the second ward.

Third Ward—All that part of the city comprised within the following lines, to wit: Commencing at a point in the centre of the south branch of the Mohawk river, directly east of the south end of Simmons' island; thence southerly along the centre of said south branch to a point where the centre line of Cedar street, extended easterly, intersects the same; thence westerly along the said line, and the centre line of Cedar street to the centre of Saratoga street; thence in a direct line to the centre line of Columbia street, where it intersects the centre line of Mohawk street; thence westerly along the centre line of Columbia street to the centre line of the Erie canal; thence northerly along the centre line of said Erie canal to its intersection with the centre line of Newcomb street, extending in a direct line to the centre line of the New York Central railroad; thence easterly along said line of Newcomb street, and the southerly boundary line of the second ward of said city, as hereinbefore defined, to the place of beginning, shall comprise the third ward.

Fourth Ward—All that part of the city comprised within the following lines, to wit: Commencing at a point in the westerly bounds of the city where the centre line of Columbia street produced westerly would intersect the same, and running thence easterly along the centre line of Columbia street to the centre line of Mohawk street; thence southerly and easterly along the centre line of Mohawk street to its intersection with the centre line of Saratoga street; thence along the centre line of Saratoga street to its intersection with the centre line of Cedar street; thence easterly along the centre line of Cedar street and the same extended easterly to the intersection thereof with the centre line of the south branch of the Mohawk river; thence along said last mentioned centre line of said south branch of the Mohawk river to its point of intersection with the boundary line of said city near Dyke avenue; thence in a southerly direction along said boundary line to its point of intersection with the southerly boundary line of said city; thence along said last mentioned line to the westerly boundary line of said city; thence along said last mentioned line to the place of beginning, shall comprise the fourth ward.

Fifth Ward—All that part of the city included within the following lines, to wit: Commencing at a point where the centre line of the Erie canal intersects the centre line of Columbia street; running thence northerly along the centre line of the Erie canal to a point where it intersects the centre line of Newcomb street extended in a direct line to the centre of said canal; thence westerly in the direct line of Newcomb street extended to the centre line of the lands of the New York Central Railroad Company; thence northerly along the centre line of said lands to the northerly boundary line of said city; thence westerly and southerly along the northerly and westerly boundary lines of said city to their point of intersection with the centre line of the Boght road (now called Manor avenue); thence southerly along the westerly boundary line of said city to the centre line of Columbia street; thence easterly along the centre line of Columbia street to the place of beginning, shall comprise the fifth ward.

Sixth Ward—All that part of the city comprised within the following lines, to wit: Commencing at a point in the centre line of that portion of the south branch of the Mohawk river flowing between Simmons' island and Van Schaick's island where the same is intersected by the centre line of Ontario street; running thence in a northeasterly direction along the centre portion of said south branch of said Mohawk river to the northern boundary line of said city; thence along said last mentioned line to the easterly boundary line of said city; thence southerly along said last mentioned line to a point in the Hudson river east of the mouth of the middle sprout of the south branch of the Mohawk river; thence westerly along the centre line of said middle sprout to the centre of said south branch; thence northerly and westerly along the centre of the said south branch to the place of beginning, shall comprise the sixth ward.

The Science of Advertising

is the analysis, study, and practical use of the different forms of display and reference advertising publicity.

Display advertising does not often produce the desire to buy at the time it is seen. It plants a seed of suggestion, but when the desire is realized it may be hard to find the ad which suggested it. Then one naturally refers to the Directory.

Reference advertising places wherever people may look for you or your goods, information that will point to you like a signboard.

Your advertisement in this book, properly indexed under all headings which describe your business (which is equivalent to repeating the advertisement under each heading) is the greatest value for the money it is possible to get, when the nature and life of the medium is considered.

THE CITY DIRECTORY

INDISPENSABLE TO THOSE WHO KNOW WHAT IT CONTAINS

It will answer almost any question that can come up regarding inhabitants, institutions or business interests of the city.

To know how to use it, and to have it at hand for ready reference is a great aid to efficiency.

Special Descriptions of many of the more progressive houses are there because it is recognized as the logical place to look for them.

When You Build

You build to last, if you are wise. An advertisement in this book lasts a whole year, and is worth as much the last day as the first, for it is the only place people can be sure to find out something about you.

To rely solely on personal knowledge

In doing business, is like groping with a lantern. A view of the whole field is given by the classified lists in this book.

Names in heavy type, under the headings, refering to a space in this section, make it possible to find quickly those who specialize in the line you are looking for.

Spaces in this section are devoted to more complete descriptions than possible under single headings, and save time and trouble in finding just what is wanted.

If you want

To save money, time and trouble study the Classified Business Lists in the City Directory when buying or selling. They show at a glance just who is in the line of business wanted. The best and most progressive houses are in heavy type. Where there is a reference to a page at the back of the book it will pay you to look it up, for you will find there a more complete description of the house in question, often saving you a great deal of trouble in finding just what you want.

This is a more scientific way of doing business than to rely on personal knowledge, or on asking acquaintances, "Who sells such and such a thing?" It eliminates personal bias, and gives you complete information about the whole field.

In doing business, is like groping with a lantern. A view of the whole field is given by the classified lists in this book.
Names in heavy type, under the headings, referring to a space in this section, make it possible to find quickly those who specialize in the line you are looking for.
Spaces in this section are devoted to more complete descriptions than possible under single headings, and save time and trouble in finding just what is wanted.

The City Directory

Indispensable to those who know what it contains

It will answer almost any question that can come up regarding inhabitants, institutions or business interests of the city.

To know how to use it, and to have it at hand for ready reference is a great aid efficiency.

Special Descriptions of many of the more progressive houses are there because it is recognized as the logical place to look for them.

The Science of Advertising

is the analysis, study, and practical use of the different forms of display and reference advertising publicity.

Display advertising does not often produce the desire to buy at the time it is seen. It plants a seed of suggestion, but when the desire is realized it may be hard to find the ad which suggested it. Then one naturally refers to the Directory.

Reference advertising places wherever people may look for you or your goods, information that will point to you like a signboard.

Your advertisement in this book, properly indexed under all headings which describe your business (which is equivalent to repeating the advertisement under each heading) is the greatest value for the money it is possible to get, when the nature and life of the medium is considered.
